# Shared risk worksheet

## Stochastic Parrots and Beyond · blank copy

This worksheet is optional. Use it to prepare your Responsible GenAI Use Statement for your Research Use: one actual or planned use of generative AI in your research. Fill in each field. Name a source where you can. Write “unknown” where you do not know: an unknown is a finding.

Do not write confidential or personal research data on this sheet. A fictional worked example shows how to fill it in.

| Field | Notes |
|---|---|
| Research Use | |
| System or vendor | |
| Evidence source | |
| Lifecycle stage | |
| People affected | |
| Risk or benefit | |
| Severity and uncertainty | |
| Existing mitigation | |
| Possible alternative | |
| Disclosure requirement | |
| Institutional owner | |
| Next action | |

**Decide.** Answer three questions before you choose a use or a non-use.

- **Constraints:** Which conditions must hold before you consider any use?
- **Comparison:** How do benefits, burdens, and uncertainty compare with the alternative, for the same task and quality?
- **Accountability:** Who decides, who can object, and when do you review the decision?

| Question | Notes |
|---|---|
| Constraints | |
| Comparison | |
| Accountability | |
| Decision | |
